

Mysteries of Your Brain - Planetarium Show

Mysteries of Your Brain is a 22-minute planetarium show that takes you on an immersive, animated adventure that explores the intricacies and uniqueness of the human brain.

IP Status: Copyright

Applications

- Planetarium show

Technology Overview

Jump into an animated adventure following a girl and her crow companion as they explore what makes the human brain so special. Together you'll zoom along the paths of neurons, find out how human and animal brains differ, and experience illusions on a grand scale! Along the way, you'll learn how your brain makes you, well, you, and see that ultimately, we each have the power to change our brains.

The Bell Museum collaborated with the University of North Carolina Morehead Planetarium and Science Center to create this planetarium show. The work was made possible through generous support from the Richard M. Schulze Family Foundation and Boston Scientific.

Run time: 22:20

Recommended ages: 8+

Recommended grades: 3rd-7th

No license fee. 2K and 4K pre-rendered videos available for free download.

2K and 4K frames available by hard drive with a \$150 charge.

Distribution kit also includes stereo and 5.1 audio files, a transcript file for captions, and a publicity guide.

Please read and sign the license agreement, and we will be in contact with you to arrange delivery of the distribution kit. By signing the license, you agree to provide us with an annual attendance report including the number of shows and visitors upon our request.

Mysteries of Your Brain is only available for planetariums located in the U.S.

Phase of Development

Mysteries of Your Brain is a fully developed planetarium show that is ready for viewing.
