Description

The Superior Fruit Innovations™ (SFI) Grower Network membership fee is a one-time payment that provides you with a license to become a member of the program. This fee establishes your membership in the network and unlocks access to the tools, resources, and information needed to participate.

It's important to note that this membership license does not include planting rights to any specific variety. Once you are a member, you may then follow the links below to review and complete individual variety license agreements for the apples and grapes you choose to grow. Check out the [Superior Fruit Innovation website](#) for more information on each variety, member benefits, and to sign up for our newsletter

Contact Us

Please reach out to Superiorfruit@umn.edu with any questions about the membership agreement.
